

STUDI KASUS 6

A patient can make many appointments with one or more doctors in clinic, and a doctor can accept many appointments with many patients. However, each appointment made with only one doctor , and each appointment references a single patient.

Emergency cases do not require an appointment. However an emergency is entered into the appointment book as “uncsheduled for appointment management purposes.

If Kept. an appointment yields a visit with the doctor specified in the appointment. The visit yields a diagnosis and , when appropriate , treatment.

Each Visit updates the patients records to provide a medical history.

Each patient visit creates a bill. Each Patient visit is billed by one doctor and each doctor can bill many patients.

1. Define entity and relationships.
2. Draw the ER diagram with Chen diagram.
3. Draw the ER diagram with Crow Foot diagram.
