

STUDI KASUS I

The Hudson Engineering Group (HEG) has contacted you to create a conceptual model whose application will meet the expected database requirements for its training program. The HEG administrator gives you the following description of the training group's operating environment .

The HEG has 12 instructors and can handle up to 30 trainees per class. HEG offers five "Advanced Technology" courses each will generate several classes. If a class has fewer than 10 trainees in it, it will be canceled. It is, therefore, possible for a course not to generate any classes. Each class is taught by one instructor. Each instructor may teach up to two classes per year.

- a. Define entity and relationships
- b. Draw the ER diagram with Chen diagram
- c. Draw the ER diagram with Crow Foot diagram
